In my personal standard of academic integrity, using AI content generators for this submission is...

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) \* 

This project requires you to use a lot of research and tools. AI could've helped a lot with helping with carrying the weight of this project.

7. How did using AI content generators impact **your learning** for this submission? \*

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) \*

Well, for one thing, our project relies on using AI as the main translator source. Though besides that, its mostly me or online sources, AI can't really help much with coding.

9. For this submission, how would you rate the relative contribution made by your versus AI? \*

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) \* 

Chatgpt API for translation

11. How confident were you in AI's responses that you received? \* 

- ☒ Confident
- ☐ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident
- ☐ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) \* 

The main thing we did was just test a small sample of phrases to ensure AI could properly translate. Though in the large scale of things, there is obviously the situation where you could ask it something else and it gives the wrong translation... but we like to believe our AI tool will adapt and learn in those cases.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. \* 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yeah, AI is not very helpful when it comes to giving code in my opinion. Using online sources, videos, documentation, and forums proved much more efficient when it comes to getting my questions answered.

14. For each of the following items, how would you rate the relative contribution made by you versus AI? \*

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. \* 

In terms of other work, API. Yes, we used it as the main source of translating. But other than that, I just had a really hard time getting the right answers from chatgpt.

16. Please leave any further comments above use of AI tools for this submission / CMPT 276 

Maybe I just have bad luck with AI when it comes to coding.
